Established: 1979

THE EMBLEM

Arunachal Pradesh is a beautiful North- Eastern state of the Indian Union. The name of the state, aptly and literally, means ‘the Land of the Rising Sun’. The Sun at the centre of the emblem plays a prominent role in the lives of the people of the state. It signifies the intimate connection between the mind of man and the moving spirit of the universe. It is also a symbol of energy, positivity, hopes and aspirations. The vast mountain ranges in the emblem speak volumes about the topography of the state and the breathtaking scenic beauty they offer against the background of which the mosaic of culture of the state has flourished. Thus, the natural objects in the emblem inspire us all the more to live abundantly in close proximity with nature without harming its pristine beauty, and unleash the true potentials in us by seeking knowledge with utmost reverence for mother earth and with due cognizance of the ideas treasured in our culture, for a sustainable future.

THE MOTTO: VIDYA DADATI VINAYAM

The motto ‘Vidya dadati vinayam’ enshrined in the emblem of the college is a part of the Sanskrit shloka taken from the ‘Hitopadesha’ that reads as:

विद्या ददाति विनयं विनयाद् याति पात्रताम् ।
पात्रत्वात् धनम् आप्नोति धनाद् धर्मं ततः सुखम् ॥

vidyā dadāti vinayaṃ vinayād yāti pātratām |
pātratvāt dhanam āpnoti dhanād dharmam tataḥ sukham ||

It means “Knowledge makes one humble, humility begets worthiness, worthiness creates wealth and enrichment, enrichment leads to right conduct, and right conduct brings contentment.”

Translated literally, VIDYA means ‘knowledge’, DADATI means ‘gives or imparts’, and VINAYAM means ‘humility’. But at deeper level Vidya is both knowledge and power. It has inherent values as well as utility for life; it is illuminating and enlightening. It demands disciplined devotion to the pursuit of Truth. It develops in its votaries an attitude of tolerance, open-mindedness, freedom from prejudice, and penchant for new ideas. In order to succeed in life, first and foremost, what we need is Vidya; and in the absence of humility, reverence for ideas, grace and nobility at heart, we cannot be knowledgeable in real sense of the term. Therefore, to lead a life full of contentment we need to acquire knowledge (Vidya) first.

PRINCIPAL'S MESSAGE

Dear Students,

The National Education Policy (NEP) 2020 has envisioned a new and forward-looking India where the Higher Education System plays an extremely important role in promoting human as well as societal growth leading to the fulfilment of the dream of a developed India as cherished in its Constitution. The need of the hour is to create well-rounded, and skilled human resources having 21st century capabilities across a range of disciplines including sciences, social sciences, arts, humanities, languages, as well as vocational subjects. With this objective in mind the affiliating university, RGU Doimukh, is going to implement the new curriculum based on NEP 2020 from the academic session 2023-24 that provides ample opportunities and flexibility to the students to study a variety of subjects across disciplines, acquire identified sets of skills, and imbibe values to become capable and holistic individuals. Dera Natung Government College, Itanagar, being a reputed institution in the state is all set to embrace this trajectory of higher education and fulfil the national objective. Over the past 44 years it has sincerely been straining every nerve to impart quality education in the best possible ways and will continue doing so to maintain its legacy as a premier institution in Arunachal Pradesh.

Dera Natung Government College is well equipped with robust infrastructure, ICT enabled class rooms, computer centre, enriched and automated library, sports ground, auditorium etc., to cater to the requirements of the new education system. Furthermore, there is rapid ongoing expansion of infrastructure in the college like construction of a new administrative block, a hundred-bedded girls' hostel, rostrum and gallery, and the development of a park with open gym to keep up with the needs of our thriving campus. We have a team of highly qualified faculty members and skilled non-teaching staff who are extremely professional to render valuable services with dedication, commitment, passion and enthusiasm. A good number of faculty members of the college have been conferred with the Outstanding College Teachers' Award. Apart from academics we also connect the sharp and vibrant minds of students to the call for humanity and train them for extension activities, as undertaken by NSS volunteers and NCC cadets.

The performances of students in academic, co-curricular and extra-curricular activities have been excelling over the years. We have many University toppers and Gold Medallists. Our students have been representing the state, the region and the nation in games & sports and art & culture. In the years ahead, DNGC will continue to uphold its glory of being not only one of the top colleges in the state but also to become one of the top higher educational institutions in the country.

I take great pride in extending a warm welcome to all of you and I encourage you to take advantage of the opportunities offered by Dera Natung Government College, Itanagar. So, choose your subjects confidently and proceed with hope, faith, and aspiration to scale new heights. The College will sincerely strive to live up to your expectations in giving you wings and empowering you in every possible way.

I am sure that in your next four years of stay in the College, our student centric modern teaching-learning pedagogy, the infrastructure of the campus blended with an unbound enthusiasm for co-curricular activities, will ensure that your stint in this precinct of knowledge becomes a fulfilling experience.

My best wishes to all of you who are seeking admission to this prestigious institution!

(Dr. M. Q. Khan)
Principal

VISION AND MISSION OF THE COLLEGE

Dera Natung Government College, Itanagar, a premier institute of higher education has its own vision and mission as given below:

Vision

1. To Learn and achieve today; Lead and serve tomorrow.
2. To encourage students to work for the good of others in the society.
3. To impart holistic and quality education within the reach of all.
4. To contribute to India and the World through inculcating excellence in the realm of education and research; and to serve as a fruitful resource for industry and society; and remain a source of pride for all Indians.

Mission

1. To nurture human potential to such an extent so that intellectually capable and creatively visionary leaders can emerge in various professions.
2. To develop individuals who are morally upright, intellectually well-informed, socially concerned, emotionally balanced, physically well-developed and culturally accomplished.
3. To develop a scientific temper by countering superstitions, and pernicious customs like child marriage, caste system, female foeticide, dowry, gender bias, regionalism etc.
4. To guide individuals towards social welfare and to nurture creative and resourceful minds, who think big, think fast and think ahead, who care for the nation and the weaker sections of society, and imbibe humanistic and patriotic passions and values.
5. To recognize and nurture the unique qualities of all students and staff and to strive for the creation and maintenance of an environment that is caring, safe and rewarding.
6. To serve the needy and the Nation with humility, respect and honour.
7. To mould intellectually competent, morally upright, socially committed and spiritually inspired persons capable of building a more human social order within the context of the nation's plurality of religions and diversity of cultures.

PROFILE OF THE COLLEGE

Established on 6th day of September 1979, Dera Natung Government College with its erstwhile name 'Government College, Itanagar' aimed at imparting higher education to young and inquisitive minds of the state at a point of time when the opportunity was scarce in the state. The founders had an ambitious endeavour not merely to make it a centre for offering Degrees but also to let the youths explore new areas of knowledge, providing a platform for budding leadership in all walks of life, preparing the youths for future challenges in personal and social spheres and grooming them as competent human resources, who, in turn, could promote the high social ideals such as equality, social justice, communal harmony and cultural plurality and other vital objectives of this college.

The college initially functioned from Govt. Higher Secondary School building, Itanagar, and fulfilled the educational aspirations of a few ambitious students with four departments viz. English, Hindi, Economics and History in the evening shift. In 1986, it was relocated to its present sprawling campus

with a huge Administrative and Academic Block and continued both in the night and the day shifts till 1990 when the night shift was finally done away with. Since then, the college has progressed in leaps and bounds in terms of infrastructure, student strength, faculty position, impressive student performance and academic research. The college has been assessed and accredited by NAAC, Bangalore, for 3 cycles consecutively.

During its 43 years of glorious existence, the college community consisting of students, faculty members, non-teaching staff and of course the college authorities have been working towards the fulfilment of these ideals and goals and presently it remains one of the premier institutes of Higher Education in the State with a legacy of excellence in teaching and learning process. The college was re-christened as **DERA NATUNG GOVERNMENT COLLEGE** in the session 2001-02 to commemorate the remarkable contributions of the visionary and illustrious leader, late Dera Natung, who served as one of the finest and most dynamic Education Ministers thriving for all round development of education in the State.

The College has presently more than 4000 students enrolled in three streams viz Arts, Science and Commerce, comprising of 14 departments. There are 84 highly qualified and dedicated faculty members and 57 competent non-teaching staff working tirelessly for the growth of the institution. The college has a well-stocked library with 36718 titles with a reading hall for students and designated chambers for the teachers. A big play ground with an open stadium developed under UGC fund provides ample facilities to students to nurture their skills in games and sports, athletic activities and other events for development of recreational and healthy environment in the campus. An Auditorium in the heart of the college facilitates the cultural, literary and indoor sports events besides providing ample space to conduct awareness programme, counselling, workshop, seminar, etc. The college has a Computer Centre and IT Cell to train the students in basics of computer education. A fully digital Language Lab set up under RUSA scheme helps the students sharpen their listening and speaking skills.

The Coaching for Entry in Services Cell of the college imparts coaching to APST students for entry into various services. The coaching is held for numerous competitive examinations with special focus on civil services and banking recruitment examinations. The Counselling Cell creates awareness among the students regarding potential career opportunities. A Remedial Coaching Centre takes care of the economically and educationally backward students by providing coaching to improve their standard. The college has well equipped NCC wings and NSS units which groom and guide students to imbibe spirit of discipline, unity, patriotism and social responsibilities. The cadets and volunteers serve the nation in various spheres with confidence and pride.

ANTHROPOLOGY: Anthropology is devoted to the study of human beings and human societies as they exist across time and space. It encompasses all of humanity as well as our closest primate relatives, from the earliest prehistoric human ancestors to the varied societies inhabiting the world today. It is distinct from other social sciences in encompassing both the full span of human history and the full range of human societies and cultures, including those located in historically marginalized areas of the world. As a result, anthropology is especially attuned to questions of social, cultural, and biological diversity and to issues of power, identity, and inequality. Education in Anthropology provides excellent preparation for living and working in a multicultural and globally interconnected world. It equips students for careers in a wide range of fields, including law, medicine, business, public service, environmental sustainability, and resource management, etc. A number of academic anthropologists find careers in other departments or university programmes, such as schools of medicine, epidemiology,

public health, ethnic studies, cultural studies, community or area studies, linguistics, education, ecology, cognitive psychology, and neural science.

EDUCATION: As a field of study, education is a contemplative search for theory and science of educating the human world. Hence, it studies various factors, methods and elements involved in the process of enlightenment. A major purpose of education as a subject is to help, to understand and to improve the human qualities. Its immediate purpose relates to the intellectual, moral, social, emotional and physical developments of human being. It studies various principles and ideas that lie in educational psychology, educational philosophy, educational sociology, educational supervision, administration and planning, educational management, educational statistics, educational research, educational technology and programmed learning, educational measurement and evaluation, curriculum development etc. to improve personal, academic, and professional competencies. The most important aspect is to develop the man in a socially desirable way and to improve and maintain a democratic way of life with competing goals and values of life. It injects analytical thinking and understanding so that a sound system is operated for a thoughtful and effective all-round development. Education as a subject helps to make an excellent journey of life from the world of knowledge to the great world of wisdom. However, as a subject of study, education has become very popular among the students at under graduate and post-graduate level.

ENGLISH: English is studied both as a language and literature in higher educational institutions in India. As a Global language of communication English requires a meticulous mind to grasp and learn its nuances to secure felicity of expression and come in intelligent contact with the master minds of the world. It helps one to pursue one's career opportunities and script innumerable success stories with enormous confidence. Studying English Literature allows one to develop a thorough knowledge of literary history, theory, and criticism, and enhances one's understanding of diverse cultures and intellectual traditions around the world. Most importantly it gives the power of perspective that is so essential to finding contentment and peace in communication with people who are different from us. Since the demand for the persons with English as a core subject always persists, the painstaking study of English is paid off suitably.

HINDI: The study of Hindi has proved more beneficial in the sense that it has plenty of employment opportunities and a number of schemes are run by the government of India to foster and develop this language so that people may acquire the awareness of the national culture, customs and traditions and thereby strengthen national unity, integrity and solidarity. The study of more than one language is in itself a reward and constant source of intellectual pleasure as well as a veritable means for putting together for achieving the goals of national life. Moreover, Hindi is our national language. It has been considered as important subject in our state and hence its study in the college and university has been acquiring greater significance.

HISTORY: History is rightly called the root of all subjects because every item of knowledge begins with its history and without history we can neither prepare nor plan for future. Moreover in recent year, History has acquired greater importance in the light of archaeology, archives, and numismatics, iconography, historiography, tourism and culture affairs. National history remains one of the very interesting and important subjects at the college and university level as well as at the levels of competitive examinations. History also rewards with its rich, variegated, and inexhaustible treasure of the gems of human knowledge and experience.

POLITICAL SCIENCE: Political Science is one of the very important and popular subjects at all levels. Students become conscious of their rights and duties as citizens, acquire familiarity with the philosophical and practical foundations of the human institutions right from family to the UNO and become well conversant with the constitutions and the functioning of the governments of the worlds by virtue of their study of political science in right perspectives. As a subject, it has helped a lot in political socialization of human being in day-to-day life and it has become a means to acquire higher knowledge and better marks in the undergraduate, postgraduate and the competitive examinations of all kinds. However, political science has brought revolution and contributed a lot in modifying socio-political behaviour of man.

SCIENCE STREAM

This is an age of science. Indeed, man has entered into a new and thrilling phase of scientific development. Man's spectacular conquest of time, space, distance, speed, disease, labour as well as the nuclear energy has changed the complexion of the world. The inventions in science have changed surroundings by giving new shapes and beautiful colour. The recent advances of science have beaten magic and old witchcraft hollow. Reaching the Moon and Mars is no longer thought to be impossible. Science has made impossible possible. Hence, the importance of science in modern age can hardly be exaggerated. However, science subjects being practical oriented provides ample scope for theoretical as well as practical knowledge of the course. Study of science develops confidence to harness nature in a perfect manner.

Faculty of Science

PHYSICS: Physics provides the foundation for all natural sciences. It explains the fundamental laws of universe and introduces important concepts which are essential for advance study of all other branches of science. Physics Department of DNGC started its journey in the year 2002. Till now the Department is facilitated with required classrooms and equipped with laboratory facilities. There are four laboratories namely general laboratory, electronics laboratory, dark room/ optics laboratory and computer laboratory. In addition to these there is a research laboratory and department library.

CHEMISTRY: Understanding basic chemistry is essential for understanding the effects of chemicals on the environment. This information can be used to give plants the best nutrients to help them grow or to decide how to dispose of chemicals without poisoning the air or water supply. Chemistry can be used to change colours, alter recipes, colour flames, make things glow in the dark, or even make stuff explode. Many people study chemistry not because it is a requirement for a class but because they are interested in using it to explore the world.

MATHEMATICS: Mathematics is a methodical application of matter. It is so said because the subject makes a man methodical or systematic. Mathematics makes our life orderly and prevents chaos. Certain qualities that are nurtured by mathematics are power of reasoning, creativity, abstract or spatial thinking, critical thinking, problem-solving ability and even effective communication skills. Mathematics is the cradle of all creations, without which the world cannot move an inch. Be it a cook or a farmer, a carpenter or a mechanic, a shopkeeper or a doctor, an engineer or a scientist, a musician or a magician, everyone needs mathematics in their day-to-day life.

BOTANY: Botany concerns the knowledge of plants. Every person in the world uses it every day. Our knowledge of botany tells us which plants are nourishing as food; which are poisonous to us; which are safe for us but toxic to pets; which are deadly in their natural form, but as extracts medicinally it is life-saving. Botany teaches us which tree species are suitable for the masts of sailboats for their elasticity so that we don't choose trees which would twist and splinter in high winds. Botany reveals to us which fruits grow best in which climates, thus, which fruit trees will grow well in our back yards. If a person is lost in the woods, botanical knowledge would tell him what wild plants he could eat; or use on burns; or chew to reduce pain and fever; or even wrap around an infected wound.

ZOOLOGY: Study of Zoology helps to understand and preserve the vast diversity of species on our planet. Losing them would be a huge shame and almost a crime of humanity. Not only do we have to protect endangered species, we also have to protect species essential to the continuation of Earth's life. Without animals, humans would die out pretty quickly. And lastly, we must study Zoology to learn about our own ancestry and how we came to be. From animals, we can also learn about our anatomy and better understand the function of our bodies, which can help us combat diseases. Moreover, Zoology is an important field of science that applies to many real-world situations.

The college participates in the Inter College Youth Festival organized by Rajiv Gandhi University, every alternate year. The college has been winning the Championship consecutively for many years.

Educational Excursion

Excursion plays a vital role in the teaching-learning process. Hence, a general excursion for Semester VI students is organised every year. The students are shortlisted on the basis of merit. Apart from general excursion, all the departments of Science and Geography organise excursions separately.

Travelling Concessions

The students are granted the facility of travelling between Itanagar and their respective home towns and educational excursions on concessional rates by railways during winter break and summer vacation, as applicable under the rules.

Annual College Magazine

The College publishes an annual college magazine 'ALOKARUN' with contributions from teachers, students and other eminent persons, as a medium to propagate important information and views as well as literary prowess of the College. The magazine provides an opportunity to the students and other incumbents to develop their literary skills.

College Uniform (Dress code)

The College has a specific uniform, i.e., sky blue shirt and black pant. The students are to follow this dress code on Monday, Wednesday and Friday, while on Tuesday and Thursday they may come in normal but decent clothes. Both boys and girls should always wear full length trousers and full or half sleeved shirts. Sleeveless shirts/short pants/skirts are strictly prohibited. They must maintain proper dress code and should not come to the College in casual and indecent clothes.

Student's Identity Card

The College issues a unique identity card which serves both for identity as well as library card. It has been embedded with high security features (chips) to detect the misuse/duplicity of Identity Card.

National Service Scheme (NSS)

The NSS unit of the college provides a platform to the students for community work under the dynamic guidance of faculty members. A variety of activities such as literacy drives, health care, social service, etc. are organized to channelize the energy and idealism of the younger generation to creative pursuits. The D.N. Govt. College Itanagar N.S.S. Unit was raised in 1985 with one programme officer and 100 volunteers. Now the college has four NSS Units looked after by four programme officers. The wing undertakes regular activities as well as a special camp during every session. It also adopts a nearby village as model village and undertakes various community development works in the village.

Programme Officers: 1. *Dr. Chello Lima (M-8132895836)* 2. *Mrs. Liza Mihin (M-8794569236)*
3. *Mr. Phuntso Gombu (M-8257031839)* 4. *Mr. Botem Moyong (M-9612723517)*

National Cadet Corps (N.C.C.)

The N.C.C. is pledged to develop a sense of patriotism, responsibility, discipline, hard work and leadership in the lives of cadets for their motherland. Being trained under N.C.C the students enjoy additional opportunity to choose their future career in police, defence service, etc. The Dera Natung Govt. College, Itanagar, N.C.C. Senior Division (Boys') Wing is supervised by 1 APBN NCC based at Naharlagun with a part-time N.C.C. officer in the unit. The Senior Division Boys' Unit of the college has 160 cadets, while the Senior Division Girls' wing has 110 cadets. Students opting for N.C.C. have to collect their forms from the N.C.C. office of the college and submit the same to the N.C.C officers (Boys & Girls).

NCC Officers: 1. *Mr. Goke Riji (CTO) (M-8258059899)* 2. *Dr. Likha Eichir (CTO) (M-9862691460)*
